STATE OF MONTANA

MARC RACICOT  
GOVERNOR

STATE CAPITOL  
HELENA, MONTANA 59620-0801

Hello:

The Treasure State offers many treasures to Montanans and people around the world. Many of them are Made In Montana products. I am delighted that you have received this copy of the **1998-1999 Made In Montana Products Directory**. "Made In Montana" is more than a promotional campaign. The Montana label signifies a commitment to quality.

This year, the Department of Commerce has revised the directory to include not only a list of Made In Montana products, but also a list of businesses that are interested in carrying these products in their stores and the marketers who are interested in working with Montana entrepreneurs. The products directory is distributed free of charge to individuals and businesses worldwide.

When you see a Made In Montana logo on products, you know the merchandise is a value-added product made by hard-working Montanans. By purchasing these products you are helping a Montana business to grow and add to their local economy.

Please join me in promoting some of the treasures of our State by purchasing Made In Montana products.

Sincerely,

A handwritten signature in dark ink, appearing to read "Marc Racicot".

MARC RACICOT  
Governor

**NATURE'S  
BOX**  
by  
*Earth Furn.*

Earth Furn. combines the creative imagination of man with the beauty of nature to present to you "Nature's Box."

These unusual and naturally shaped forms, of which there are no two alike, originate from the root or burl of the manzanita tree. Manzanita, which means little apple in Spanish, is an exotic wood imported from Mexico. The manzanita berries were first used by Indians as a food source.

Each burl is individually selected and handcrafted into a useful creation, enhancing the beauty and character of your home.

## SAVOR THE SWEET HARVEST FROM MONTANA'S OWN BLOSSOM DANCERS™

Every jar of pure, luscious Prairie Gold Honey is brought to you through the tireless efforts of our own Montana Blossom Dancers. This dedicated colony of very busy bees flew more than 55,000 miles, back and forth across the flower-strewn hillsides and fields of Eastern Montana, gently gathering the nectar of more than 2 million blossoms so that you could savor the sweet, wholesome goodness of this natural Montana delicacy. And fortunately for the Blossom Dancers, we give them the Montana winters off!

*Treat your taste buds to this delicious blossom harvest!*

**Stories in Verse from Montana**

*Wind and the Night Monsters*, by Carol Hample, contains 69 pages of true stories in verse about the poet's and her parents' lives in Montana. Telling of her father's adventures as a confident and mischievous Montana boy and of her mother's youth as a tender and sensitive Montana girl, Carol paints portraits in verse. She writes of her own experiences, too, revealing the emotions of a Montana woman. With humor and honesty, her poetry flows as naturally and compellingly as good prose.

White print on a blue and black cover.

**Your  
High Quality**

**Commercial  
Printer**

Color World specializes in short-run full color printing. This includes a variety of printing categories. First, we produce two-, three-, and four-color promotional brochures or flyers up to 18" x 24" in size. Saddle-stitched catalogs, newsletters and booklets are a second key component of Color World's printing family. Note cards, posters, data sheets and postcards represent another major emphasis of Color World Printers.

But don't think for a minute Color World is a cookie cutter printer. Each job is digitally-prepared and printed in the most effective manner for your individual project. Your needs, not our schedule, are the primary driving force in our production cycle.

**Color World Printers' Commitment of Excellence:**

- Your job delivered when you want it where you want it.
- You will be treated fairly and with integrity
- Your finished product will meet or exceed your quality expectations.
- Your complete satisfaction is unconditionally guaranteed.
